

AUREL

FINE JEWELRY

UI STRUCTURE DOCUMENT

React + Vite + Tailwind CSS | v2.0.0

01. PROJECT OVERVIEW

AUREL is a premium luxury fine jewelry e-commerce single-page application showcasing fine handcrafted jewelry. The UI follows a modern, minimal, high-end aesthetic with cinematic dark backgrounds, gold accents, and immersive 3D product previews.

Tech Stack:

- ? React 18.3
- ? Vite 5 (build tool)
- ? Tailwind CSS 3.4 (utility-first styling)
- ? Framer Motion (animations & transitions)
- ? Lucide React + React Icons (icon libraries)
- ? PostCSS + Autoprefixer

Key Features:

- ? Single-page luxury e-commerce experience
- ? Premium Lenskart-style 360 degree 3D Jewelry Viewer
- ? Cart drawer, search overlay, auth modal
- ? Product configurator: karat, diamond, metal, quantity
- ? Animated sections with Framer Motion transitions
- ? Mouse glow effect, custom loading screen
- ? Fully responsive (mobile, tablet, desktop)

03. UI COMPONENT HIERARCHY

The complete UI tree mounted by App.jsx root component:

```
<App>
'-- <AuthProvider>                                [Context: User Auth]
  '-- <CartProvider>                                [Context: Shopping Cart]
    |-- <LoadingScreen />                          [Initial luxury loader]
    |-- <MouseGlow />                              [Custom cursor effect]
    |-- <Navbar>                                    [Top sticky navigation]
      |-- Logo
      |-- Nav Links
      |-- Search Icon ----> opens SearchOverlay
      |-- User Icon -----> opens AuthModal
      '-- Cart Icon -----> opens CartDrawer
    |-- <main>
      |-- <Hero />                                  [Cinematic banner]
      |-- <Marquee />                                [Scrolling text]
      |-- <CategoryGrid />                          [4 category tiles]
      |-- <ProductGrid />                          [Product cards 8x]
      |   '-- onView3D --> opens ProductViewModal
      |-- <BrandStory />                            [About section]
      |-- <Craftsmanship />                        [Process section]
      |-- <Testimonials />                        [Customer reviews]
      |-- <InstagramGallery />                    [Social grid]
      '-- <Newsletter />                          [Email signup]
    |-- <Footer />                                  [Bottom links]
    |-- <ProductViewModal>                          [Product config]
      |-- <JewelryViewer3D />                      [Premium 3D viewer]
      |-- Karat Selector
      |-- Diamond Size Selector
      |-- Metal Color Picker
      |-- Quantity Stepper
      '-- Add to Cart Button
    |-- <CartDrawer />                              [Slide-in cart]
    |-- <SearchOverlay />                          [Full-screen search]
    '-- <AuthModal />                              [Login / Signup]
```

04. COMPONENT BREAKDOWN

EFFECTS

> LoadingScreen

Initial premium loading animation displayed when the app first mounts.

> MouseGlow

Custom cursor glow effect that follows the mouse for a luxury feel.

LAYOUT

> Navbar

Top navigation: logo, links, search, account, cart triggers.

> Footer

Bottom footer with brand info, links, copyright, social icons.

SECTIONS (Homepage)

> Hero

Full-viewport cinematic hero banner with brand intro and CTA.

> Marquee

Continuously scrolling tagline / brand statement text.

> CategoryGrid

Four-tile grid: Rings, Necklaces, Earrings, Bracelets.

> ProductGrid

8 luxury jewelry products with hover effects + 3D action.

> BrandStory

Editorial section explaining the AUREL heritage.

> Craftsmanship

Visual storytelling about manufacturing process.

> Testimonials

Rotating customer testimonial slider with quotes.

> InstagramGallery

6-image grid showcasing social media presence.

> Newsletter

Email subscription form for updates and exclusive offers.

UI COMPONENTS (Modals & Overlays)

> **JewelryViewer3D**

Premium Lenskart-style 360 deg drag rotation viewer with sparkles, glow, parallax, and cinematic lighting. Props: image, metalColor.

> **ProductViewModal**

Full product configurator: 3D viewer, karat, diamond size, metal, quantity, add-to-cart.

> **CartDrawer**

Slide-in cart drawer showing items, total, and checkout CTA.

> **SearchOverlay**

Full-screen search overlay with backdrop blur. Closes on ESC.

> **AuthModal**

Login + Signup modal that toggles between forms.

05. STATE & DATA FLOW

Global Contexts:

? AuthContext --> user, login, logout, signup

consumed by: Navbar, AuthModal, CartDrawer

? CartContext --> items, addItem, removeItem, total

consumed by: ProductViewModal, CartDrawer, Navbar

Local State (App.jsx):

? activeProduct : currently opened product modal

? searchOpen : toggle search overlay

? authModalOpen : toggle login modal

Data Sources:

? src/data/products.js : product catalog, categories, testimonials, gallery images, configurator options

? src/utils/format.js : price formatter helpers

06. PRIMARY USER FLOW

- [1] **Landing**
 - ✓ Hero animation + Marquee scroll
- [2] **Browse**
 - ✓ Scroll through CategoryGrid & ProductGrid
- [3] **Click Product**
 - ✓ Opens ProductViewModal with JewelryViewer3D
- [4] **Configure**
 - ✓ Choose Karat / Diamond / Metal / Quantity
- [5] **Add to Cart**
 - ✓ Item pushed to CartContext, modal closes
- [6] **View Cart**
 - ✓ CartDrawer slides in from right
- [7] **Checkout**
 - ✓ (future integration)

07. DESIGN TOKENS

Token	Hex	Usage
obsidian	#0a0a14	Primary dark background
onyx	#1a1a2e	Secondary dark surface
gold	#D4AF37	Primary accent / luxury color
rose-gold	#B76E79	Rose gold metal accent
cream	#f5e6c8	Primary text on dark
silver	#C0C0C0	Silver metal accent

08. RESPONSIVE BREAKPOINTS

Breakpoint	Width	Layout
Mobile	< 640px	Single column, drawer nav, full-width modals
Tablet	>= 768px	2-column product modal, expanded grids
Desktop	>= 1024px	4-column product grid, full nav
Wide	>= 1280px	Max-width container, generous spacing
